

## Adesuwa Christmas Greetings 2014

Dear Friends of Adesuwa,

At the end of the year we come together with friends, celebrate the Christmas season and look back on the eventful months of the last year.

Adesuwa also had a very full and fulfilling year. Thanks to your sponsorships and donations we were able to add 20 more children to our Sponsorship Program in Cocker Village!

Thanks to you our local Adesuwa supporter was able to double her visits to Cocker Village and therefore intensify the important social-pedagogical care for the children and their families. Your donations also enabled 500 children to improve their English language skills in learning-intensive project days.

As we heard that most of the families cannot afford a special Christmas dinner, we decided to help provide the families with their own Christmas celebration meal. Each family received a sack of rice, oil and fish. Every child in the Sponsorship Program also got a small, individual present and an English book.

### Photos from the Project Days

(left: One child is happy about the sweets he got which color the tongue blue – a present from a sponsor)

Besides the children in Cocker Village Adesuwa also supports 30 children in the *Kids Club* in Lagos. For more than 7 years your donations have enabled us to provide these children with medical and pedagogical care. Also in 2014 we from Adesuwa were able to sponsor a Christmas celebration for the families with delicious food, presents and lots of fun.

#### Photos from our visit to the Kids Club

We consider ourselves blessed – not only because of the success of our projects, but also due to the interest and active involvement of our current and potential sponsors. On behalf of the children we would like to express our appreciation and thanks for your great dedication!

Next year we aim to intensify the medical care for the children. It's wonderful to know how much we can achieve together - from hand to hand.

*Adesuwa wishes you a blessed Christmas season and lots of joy in the new year!*
