[Christmas celebration in Coker Village!](#)

Our Christmas celebration 2025 was – as every year - a moving and festive event.

Villagers rented a large canopy, decorated it with balloons and filled it with tables and chairs for all our families. The tutors and volunteers organized a variety of festive activities, including parent and student dancing competitions, school plays, board games and word games. Most importantly, everyone was involved in the games. The excitement was contagious and attracted the attention of many passers-by.

Towards the end of the games, Father Christmas arrived bearing gifts and goodies for the happy children. Every family also received a Christmas present, a reusable backpack filled with rice, salt, Maggi, groundnut oil and tomato paste.

Coker villagers enjoy clothes donations

During the first 2026 monthly meeting Esther, Adesuwa's social worker and project manager, started off with an outlook of the upcoming Easter Project Days and a reminder to parents and children to work hard to continue their progress in school and at home.

A highlight of the meeting came with the distribution of clothes donated by Adesuwa volunteers.

Adesuwa brings the world to school children in Germany

Aiming to enhance understanding and appreciation for all the children of the world, Adesuwa member Barbara conducted sessions for Classes 1 and 2 at the Ruhrschule OGS. During the "We are One World: All Children are Valuable" project week, children gained insights into life in 4 other countries, participated in interactive discussions and enjoyed relevant games and activities.
